Percent satisfied with school-home relations	80.7%	86.5%	84%

*Only students at the highest middle school grade level at this school and their parents were included.

REPORT OF PRINCIPAL AND SCHOOL IMPROVEMENT COUNCIL

The mission of Lake View High School is to develop life-long learners and responsible, productive members of society by providing academic, social, and emotional skills through cooperation of school and community. With this mission as the center piece, LVHS is proud to present to parents, teachers, students, and community members the 2013 LVHS South Carolina School Report Card.

Lake View High School has academically and athletically talented students in grades 6th through 12th. Lake View High School welcomed 6th and 7th graders for the 2012-13 school year into a newly built addition for the middle school. With this merger the goals of Lake View High School continued with Student Academic Success as the major concern. This included more resources for all students and regular collaboration between the middle and high school level teachers.

The Lake View High School faculty and staff are committed to build rigor, relevant, and positive relationships to enhance student learning. Curriculum planning and implementation of standards based instruction was continued to guide student achievement. A comprehensive testing plan for the 2012-2013 school year was developed using information from MAP, HSAP, EOC, PASS, SAT, and ACT data. The following programs were implemented to assist in identifying aiding At-Risk Students, (Tutoring, Mentoring, Military ASAB testing, Career Counseling, PAXIN Program, Credit Recovery and Trinity Behavior Counseling).

Student test scores continue to improve. Many new opportunities are in place at Lake View High School to provide our students with new avenues to excel. Students are still provided more and more chances to develop their skills through programs such as The Reading Counts reading program, A Plus, SAT workshops and software packages for remediation and enrichment. With the partnership with Northeastern Technical College students are able to receive dual credit; college credit as well as high school credit. This articulation agreement will allow students who successfully complete certain course work a head start into their next level of education beyond high school.

The faculty and staff continue to reach high levels of self-growth through professional development in technology, instructional delivery, Common Core Standards and knowledge of SC State Standards to continue to improve student academic performance. Our School Technical Assistance Team, school based "learning communities" and School Improvement Council strive to work together to provide research based opportunities for improving teacher skills and strategies.

In the face of this challenging time, we continue to have obstacles that have a direct impact on our goal of providing educational excellence. Teacher recruitment, financial concerns, student apathy, parent involvement, professional training, and community support are serious issues to be addressed. Discipline/Attendance issues, inadequacies in our school facilities and a poor economic base create a negative tone for achieving our goals. We are determined to find new innovative methods of using our limited resources to help each and every child succeed.

To provide each of our students the highest quality of education, the talents, strengths and skills of students, parents, teachers, and community members must be combined and used to enhance academic and social success. It truly takes, "All hands pulling together the rope of victory to increase Student Academic Success." Lake
